

CHEESMANS

Established in 1990 we are a small and independent firm of Chartered Accountants based in Islington, our services can be broken down into five main areas:

- Audit and Accountancy
- Taxation
- Corporate Finance
- Business Advice
- Company Secretarial and Formation Services.

Our client profile shows how diverse our services are, with much of our work targeted at private proprietor run companies with a turnover of £1 – £100 million.

Taxation

Unusually for a small firm, we are specialists in providing high quality tax planning services in addition to the normal taxation compliance services and have the expertise and ability to advise on UK and Offshore Trusts and Film Partnership investments amongst other planning schemes.

Surprisingly for a small firm, at least one third of our annual income arises from the taxation advice that we provide.

Corporate Finance

Our advice in this area includes company mergers, acquisitions and management buy outs.

Audit and Accountancy

We have a team of highly motivated qualified Accountants who provide a first class auditing and accounts preparation service, vital to the proper running of any business, but in addition provide a business advisory service which is unique in its breadth, depth and originality.

Point of Contact

The team is led by the Partner, Carol Cheesman, assisted by the management team:

Sam Haggan (Tax)
Harish Shah and Fintan Gilbert (Audit, Accounts and Business Advice)
Suzanne Alves (Company Secretarial)
